Play, Sensory & Social Skills

Peek a Boo

Focuses on Joint Attention, Play Skills and Early Social Emotional Development.

Let's Play [2 Levels]

Focuses on Advanced Joint Attention, various stages of Pretend Play and providing specific strategies for peer play and social interaction.

That's Cool [3 Levels]

Social Cognitive Therapy using Michelle Garcia Winner and 10 other research-based methodologies for social understanding. Role play, video modeling and specific strategies for anxiety and anger management.

Learning in Motion

Focuses on sensory processing, motor planning, balance and coordination skills.

ABA Applied Behavior Analysis

Verbal Behavior (Group Learner)

Focuses on group lessons to foster language understanding and expression using a behavior language approach.

Individual Learner Clinic-based ABA

Focuses on individualized lessons to foster development of communication, social and self-help skills in clinic. Day Program for Autism and related diagnoses.

Individual Learner Home-based ABA

Focuses on individualized lessons to foster development of communication, social and self-help skills. Focus on parent education so parents can implement strategies at home.

Academic Development Program

Language to Reading Lab

Focuses on all aspects of oral and printed language: vocabulary, grammar, phonemic awareness, fluency, deductive reasoning, predicting, summarizing and comprehension.

Handwriting

Focuses on development of handwriting skills.
